

SPOT ONE: 30 sec — Parallel Universe

Doug and Barry are waiting for an elevator.

Barry: Did you know Brand X has the most fuel-efficient passenger car fleet in Canada?

Doug: I didn't know that.

Barry: How did they do that?

Doug: By making really good cars?

Barry: [*Stares off into space.*] Parallel universes.

Doug: What?

Barry: Maybe Brand X engines open a wormhole into a parallel universe where fuel gets consumed at a much slower rate.

Elevator opens.

Just imagine what else is different there. Are the buffalo super-intelligent?

Barry rushes in the elevator and presses a button.

Aw man, I gotta find a scientist!

Elevator door closes

Doug: ... Barry?

Cut to supers.

Cut back to Doug still in front of the elevator.

Doug: This wouldn't happen to a super-intelligent buffalo.
